This needs to move now too. I worked with Bruce to provide the background descriptions for the eliminated programs that Veronica highlights in the attached. She doesn't need further explanation and just wants to be sure the names are correct. They are. Do you have any comments?

Please see attached the draft fact sheet for lead. Please have your program offices edit as needed. I'm looking for additional ways to explain how the reductions/eliminations can be mitigated (if possible) as requested by the Administrator. Let me know if you have any questions. Will work on PFAS next.

Thanks.
